## Introduction

| Product structure | Packing list | Product parameter | Functional configuration | Product information

Assisted roller\*4

Nozzle\*4:  
Pay attention to protect!

Synchronizing wheel:  
Keep scrolling while printing

Alarm Light interface  
Encoder interface  
Photoelectric interface

Print button

Usb interface

Type-C

Power interface

Power button:  
Long press for 3 seconds to turn  
on and off  
Status indicator lamp

# Full Packaging

Wide format handheld inkjet printer

Positioning bracket

Instrument container

USB

Ink cartridge

Power line

Adaptor

Brochure

# Product Parameter

Content	Specification
Display screen	5 inch color LCD capacitive touch screen
Status display	LED light shows green indicating ready state;Blue is the print state;Red indicates alarm status;
Operation interface	User-friendly UI design, simple operation
Printing content	Text, number, symbol, qr code, bar code, picture, time, date, counter, etc
Printing material	Wood board, carton, fiberboard and other absorbent materials
Printing font	Vector font, dot matrix font
Printing accuracy	300dpi
Printing lines	Up to 40 lines
Nozzle height	25mm-100mm (According to the number of nozzle)
Printing distance	2-5mm (The distance between the nozzle and the object)
Size	239*182*117mm

Content	Specification
Printing speed	10m/min(300dpi fastest)
Printing orientation	360 degree coding
Ink color	Black, white, red, yellow, blue, invisible
Ink capacity	42ml
External interface	USB, Photoelectric interface, power interface, U disk, synchronizer, alarm light
Battery capacity	6000mAh
Standby time	22h
System power consumption	47W
Use ambient temperature	0-40°C
Use environment humidity	10%-80%
Power supply	DC9V-5A
Weight	1.25Kg
Storage capacity	8GB
Continuous printing time	4h or more

# Product information

- Product name: Wide Format Handheld Inkjet Printer

With handheld mode, induction mode, continuous mode printing function

Use water-based ink cartridges; print carton, wooden box, kraft paper bag and other water-absorbing materials

Realize wide-format printing

# 02

## Characteristic

| Exterior design | Product advantages | Product Honor |

# Exterior design

- ✓ 5 inch large color touch display
- ✓ Multi-layer structure design, metal front cover
- ✓ Classic look color scheme
- ✓ Hidden interface design, no leakage of ink cartridge and interface

# Product advantages

- 4 core CPU, 8GB large storage space:

Super strong hardware materials ensure smooth and stable system operation.

## Product advantages

- 10cm print head height, print new height

4 Splicing design of the nozzle, breaking through the difficulties of industry splicing technology

# Product advantages

- Cartridge installation detection function

Ekoprint original creation:

When the ink cartridge is disassembled, the circuit is automatically cut off, which fundamentally solves the problem of power off and disassembly of the ink cartridge.

# Product advantages

- 19 languages, with handwriting input

Ekoprint Wide Format Handheld Inkjet Printer is available in Simplified Chinese, Traditional Chinese, English, Japanese, Korean, German, Spanish, Russian, Arabic, Italian, Portuguese, French, Hindi, Thai, Vietnamese, Persian, Turkish 17 languages and corresponding input methods, users can switch at will, wide range of use; (domestic sales are only simplified Chinese)

Configure handwriting input and associative input function to make each user input more worry-free

# Product advantages

- Powerful coding function

Wide Format Handheld Inkjet Printer can realize variable text, two-dimensional code, bar code printing, realize one thing one code, variable logo!

# Product Honor

➤ Independent development, patent protection: (16 patents applied)

## Usage

| Handheld printing | Picture printing |

# Handheld mode printing instructions

Click "Print Edit" on the main menu interface

"Add" can add text, QR code, bar code, picture, time, number, etc. according to requirements;

Click the red box to enter the content input interface

Content input

Content settings

Confirm printing

# Picture printing instructions

The picture should be named after "number or English"!

The picture is saved as "JPG, PNG, BMP" any format to the U disk pictures folder

3

2

Modify picture pixel size; horizontal maximum 12800; vertical maximum: 566

1

Use the computer's own drawing tool to open the picture. Select "Resize" to determine the "Pixel" option

4

Insert the U disk into the machine; select the corresponding pictures in the "mobile storage" to import to the machine

5

Add pictures in print editing; select the corresponding pictures to print;

# 04

## Application

# Product application

## Wooden box printing

It is used for printing in the wooden box industry, and the digital printing method solves the traditional template printing.

## Carton proofing

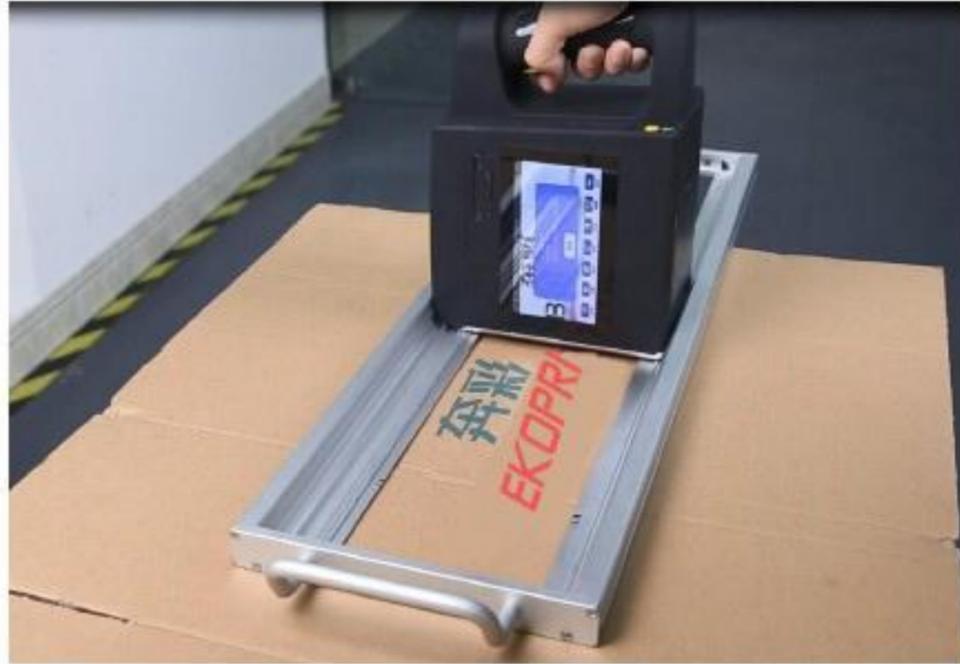

Solve the cost of carton proofing and improve the time efficiency of carton proofing.

## Paper bag logo

Satisfy the printing content of paper bag production date, product name, etc.

# Product application

Digital printing, the content is not restricted by screen printing, Decreasing cost for ink.

# Product application- EPH-85 Series

Plastic Bin Printing

Signs Printing

Glass Printing

# Product application

Wood Pallet Marking

**THANKS!**
