PULOON

Eagle Eye 7

2 Pocket Banknote Sorter

Product Information

Eagle Eye 7 is the highest performance banknote sorter, which is developed by all our accumulated knowledge and experiences in terms of mechatronics and recognition technology. EE7 is designed with the compact size for space efficiency and the easy user interface for convenient & speedy work at site.

Features

- Compact & Modern Design
- 5" Large Touch Screen Display
- Multi & Auto Currency Function
- Powerful Fitness Sorting (FS Type)
- Reliable Serial Number Recognition
- Ticket Scanning & Voucher Barcode Capturing Function
- Patented Tape Detecting Technology & Dust Collecting System
- Available for Data Export to PC (csv file)

Specification

Model	Eagle Eye 7
Pockets	2 Pockets
Hopper Capacity	500 notes (Extendable)
Stacker Capacity	200 notes
Reject Capacity	100 notes
Speed	Selectable from 800 to 1,200 notes/min
Display	5" Touch LCD
Interface	3 x Serial Ports(Print, Display1, Display2)
	USB1.1, USB2.0, LAN
Dimension	272 x 298 x 351 mm
Weight	VS: 8.9 kg / FS : 9.5kg
Power	100~240V AC, 50/60Hz
Accessories	Customer Display (5" LCD Type) External Thermal Printer

Model Type

Features	Eagle Eye 7	
	VS	FS
Value Counting	O	O
Counterfeit Detection	O	O
Serial No. Recognition	O	O
Fitness Sorting (Esp., Tape Detection)	X	O
